PROFESSIONAL SUMMARY

Results-driven Python Backend Developer with 3+ years of experience designing and implementing scalable Django applications and RESTful APIs. Proven track record of improving system performance by 30% through optimization and reducing manual effort by 40% via automation. Expertise in Django, Django REST Framework, PostgreSQL, SQLite, and Git version control. Strong collaborator with cross-functional teams delivering high-quality, maintainable solutions on schedule.

TECHNICAL SKILLS

- **Languages & Frameworks:** Python, Django, Django REST Framework
- **Databases:** PostgreSQL, SQLite3, Redis (async task queuing with Celery)
- **Tools & Technologies:** Git, Celery, Version Control, Backend Optimization
- **Authentication & Security:** JWT (JSON Web Tokens), Token-based Authentication
- **Development Practices:** Agile/Scrum, Code Refactoring, API Development

PROFESSIONAL EXPERIENCE

Python Django Developer

September 2022 – Present

Tata Consultancy Services, Chennai, India

- Architected and developed Django-based web applications with RESTful APIs, ensuring seamless front-end-backend integration and reducing response times by optimizing database queries
- Implemented secure authentication systems using JWT tokens, ensuring robust user authentication and authorization across multiple applications
- Built and optimized desktop applications with SQLite 3 for efficient data storage and management of mission-critical business operations
- Custom tracking systems engineered using Django to streamline workflow efficiency, resulting in a 30% improvement in system performance by code refactoring and optimization
- Automated data processing pipelines and routine tasks using Python scripting with Celery and Redis for asynchronous task management, reducing manual effort by approximately 40% and improving operational efficiency
- Collaborated with cross-functional teams including frontend developers, QA engineers, and product managers to deliver robust, scalable solutions within tight deadlines
- Managed version control and code repositories using Git, implementing branching strategies and code reviews to maintain code quality and streamline team collaboration
- Ensured backend best practices including scalability, maintainability, security, and adherence to software development standards across all projects

EDUCATION

Master of Computer Applications (MCA)

2023 – 2024

SRM Institute of Science and Technology

Kattankulathur, Chennai

Bachelor of Computer Applications (BCA)

2019 – 2022

K.S.Rangasamy College of Arts and Science

Tiruchengode, Tamil Nadu

KEY ACHIEVEMENTS

- Received Certificate of Appreciation for outstanding project delivery and technical contributions
- Awarded Service and Commitment Award for consistent high performance and dedication to organizational goals
